My Personal Review:
This book is a MUST for anyone seeking great real, and relevant advice from a professional source. When I first purchased it, I expected something still informative, but mostly witty --turns out, it's BOTH! As a current fashion student and freelance professional, this is my new go-to source for inspiration, essential technical tricks (both for construction and illustration), and grounding. The author includes things they do not teach you in school, and wisdom that takes years to accumulate in the fashion industry. Make it accessible in your home and read often so these ideas are freshly with you. I cannot recommend this gem of a book enough!
