Understand your relationship with this breakthrough guide where you'll learn about the seven natural stages of marriage. Discover the actions you need to take at each step to ensure a healthy, growing bond. Rich with specific advice, quizzes, and exercises, and based in part on the Readers Digest Marriage in America Survey or 1,001 marriage people, this is the one book you need for a truly fulfilling marriage, no matter how long you've been together, no matter how challenging or happy your marriage is today.

Features:
* Laughter, Intimacy and Passion: Today, Tomorrow, Forever
* Understand your relationship with this breakthrough guide where you'll learn about the seven natural stages of marriage.

My Personal Review:
This is a very powerful book for anyone contemplating marriage or thinking about the marriage in which they find themselves. It is a forthright look at what marriage means, what is really going to happen the various stages in which marriages go through. To name just two, the wedded bliss of the first few months or hopefully years is wonderful. But it's quite different than the child rearing years are taking your (and her) time, money, emotions and more.

Note that this is not a book for those who have already decided on a divorce. If one party to the marriage has already decided it is over, well it takes two to make a marriage, only one to break it apart. As the book says, it is not a relationship repair book, it's a book that will instead tell you about relationships and how they change over time.

There's a neat quiz to tell you what stage your relationship is in. I've just got to mention the first question and one of it's four answers:
'If our relationship were an object, it would be a:'

And answer d is:

'video game - push the button, a new battle starts.'
