In book two of the Across the Universe trilogy, New York Times bestselling author Beth Revis mesmerizes us again with a brilliantly crafted mystery filled with action, suspense, romance, and deep philosophical questions. And this time it all builds to one mind-bending conclusion: They have to get off this ship.

Elder is now in charge of the Godspeed, following the death of Eldest. He is determined to be different in his leadership style, no more lies and no more drugging his people. But rebellions begin rising up, laziness threatens food production, and theres another murderer onboard. Meanwhile, Amy stumbles across a thread of clues left behind by Orion,
explaining his extreme actions and revealing another shocking secret that will affect the entire ship.

Amy and Elder are once again faced with startling secrets and lies that have been hidden for generations. The two young adults are forced to make more difficult decisions, affecting the entire population. Revis sophomore novel is just as incredibly vivid and intense as before. This is the second in her science fiction trilogy, that may just be more suspenseful that the last. The author is amazingly talented at taking the reader through the same range of emotions as her characters, from panic-laden claustrophobia in the first novel to a fear of chaos and mutiny in this sequel.

Both teen and adult science fiction fans will enjoy this extraordinary coming-of-age story. Filled with intense suspense, adventure, mystery, and a bit of romance - A Million Suns is pure excitement from beginning to its cliffhanger ending. This fantastic space opera trilogy is a must-read.
