Between Panic and Desire (American Lives) by Dinty W. Moore

“Insouciant” and “irreverent” are the sort of words that come up in reviews of Dinty W. Moore’s books—and, invariably, “hilarious.” Between Panic and Desire, named after two towns in Pennsylvania, finds Moore at the top of his astutely funny form. A book that could be named after one of its chapters, “A Post-Nixon, Post-panic, Post-modern, Post-mortem,” this collection is an unconventional memoir of one man and his culture, which also happens to be our own. Blending narrative and quizzes, memory and numerology, and imagined interviews and conversations with dead presidents on TV, the book dizzily documents the disorienting experience of growing up in a postmodern world. Here we see how the major events in the author’s early life—the Kennedy assassination, Nixon’s resignation, watching Father Knows Best, and dropping acid atop the World Trade Center, to name a few—shaped the way he sees events both global and personal today. More to the point, we see how these events shaped, and possibly even distorted, today’s world for all of us who spent our formative years in the ’50s, ’60s, and ’70s. A curious meditation on family and bereavement, longing and fear, self-loathing and desire, Between Panic and Desire unfolds in kaleidoscopic forms—a coroner’s report, a TV movie script, a Zen koan—aptly reflecting the emergence of a fractured virtual America. My Personal Review:
This is probably the most refreshing and inventive works of creative nonfiction. The stories interact with one another in creating a wonderful, compelling narrative. I chose this as a required reader for my creative writing class at Manatee Community College because the forms of the
stories provide great examples of what creative nonfiction can be in the 20th century. Because the novel is enjoyable, it reads quickly. The topics span a great distance in the modern era of popular culture, yet this book does not bog itself down with over-referentiality. Buy this and you will not be sorry!
