In Thailand, two men hire some modern-day pirates to hijack a Russian freighter. It is appallingly easy and the ship sails, undetected, toward the western coast of North America. On the Bering Sea, the USS Sojourner Truth, a Coast Guard cutter, patrols the Maritime Boundary Line. The seasoned crew, dealing with a high volume of ocean-going traffic, is finding that choppy seas are making their efforts even more difficult. In Washington DC, a CIA analyst traces the sale of black market plutonium. As the pieces fit together, he realizes that a terrorist attack is under way on a valuable-and vulnerable-American target. He also sees that the Sojourner Truth is sailing right into the attack—putting his estranged wife, the second in command on the Sojourner, at the heart of an international crisis. Relentlessly gripping and frighteningly plausible, The Blindfold Game is the pinnacle of Dana Stabenow’s award-winning career.

**Personal Review: Blindfold Game by Dana Stabenow**
Mr. Smith and Mr. Jones are planning something big. The problem is, they are the only people who know the details. In fact, almost no one knows they even exist. CIA analyst Hugh Rincon does, however. He also has reason to believe that these two mysterious men were responsible for the explosion that killed a lot of people in Pattaya Beach, Thailand.

As Hugh gathers information, he discovers that terrorists Smith and Jones plan to do some serious damage from somewhere on the Bering Sea to his home state of Alaska. The only way to stop them is to recruit the help of Coast Guard cutter, Sojourner Truth, where his wife is an executive officer.

Dana Stabenow's BLINDFOLD GAME is a clever, first-rate, page-turner I couldn't put down. The plot, seemingly complicated at first, isn't confusing. Main characters, Hugh Rincon and XO Sara Lange, are strong, interesting, and well matched. Stabenow's attention to detail regarding life on board a U.S. Coast Guard cutter not only put me right in the story, but provided interesting information about the responsibilities and danger the Coast Guard faces. Stabenow's descriptions of a ferocious storm at sea had me holding my breath and grateful to be reading the book from the warmth and comfort of home.

Having been to Anchorage recently, it was a treat to read about some of the spots I'd either been to or knew a little about. But it was even more of a treat to discover this award-winning author's work.
