New York Times bestselling author Lauren Myracle offers a spine-tingling, unforgettable story of friendship gone very, very wrong.

Lauren Myracle brings her keen understanding of teen dynamics to a hypnotic horror story of twisted friendship.

When Bliss’s hippie parents leave the commune and dump her at the home of her aloof grandmother in a tony Atlanta neighborhood, it’s like being set down on an alien planet. The only guide naive Bliss has to her new environment is what she’s seen on The Andy Griffith Show. But Mayberry is poor preparation for Crestview Academy, an elite school where the tensions of the present and the dark secrets of the past threaten to simmer into violence. Openhearted Bliss desperately wants new friends, making her the perfect prey of a troubled girl whose obsession with a long-ago death puts Bliss, and anyone she’s kind to, in mortal danger.

Lauren Myracle has taken the ubiquitous friendship novel to a new, dark place.

Bliss is a new kind of book, something quite unlike anything else Lauren Myracle has written, lacking greatly in the fluffy-bunnies department. She pulls it off spectacularly, with great narration, fresh and complicated new characters, and plenty of those lovely plot twists we love so very much! Though I didn't realize at first, this book is set in the past, but the girls seem so modern in their speech and actions, everything blends in wonderfully. I loved how this was your typical YA story...plus plenty of supernatural elements, plus social commentary. The blurring of genre lines was done seamlessly and perfectly. While I had some issues with the ending and I really think the better ending would have been the less tragic one, I can see why Myracle did decide to write it as she did. I highly recommend this book--many people somehow think "supernatural? Pshh, must be a lame Twilight rip-off!" but I'm telling you, this bone-chilling novel has things much much scarier than a family of vegetarian vampires, and it's a truly original book well worth your time.
