My Personal Review:
The first two reviews seemed detailed and accurate. I don't usually give 5 stars, but I couldn't think of anything lacking or unnecessary here. The book fulfills it's role perfectly. Usually these books will miss something important or give too much attention to something trivial, but this one's dead on.

Something I wanted to mention. For some reason, I had thought that this deluxe guide was the only one with detailed maps. I had thought the laminated maps were the only maps and you needed the deluxe guide to get them. The maps inside the book are more detailed and useful to me than the laminated ones. The laminated maps would be great for you if you actually needed them to write on.

I actually bought this deluxe edition instead of the standard for the laminated maps. Now I think the laminated maps are unnecessary, but am still pleased with the aesthetic quality of the deluxe edition.
So, if you don't want to spend a lot, but feel you need those laminated maps, don't worry about them (unless you really wanted to write on them). All gimmicks aside, if you want a bargain, the non deluxe guide has all you need. If you're willing to spend $10 more to get a nicer quality of the same book, then go for it. This is the nicest game guide I've ever read.
