Finally a book that unveils the shroud of mystery surrounding Waffen-SS camouflage clothing. Illustrated here, both in full color and in contemporary black and white photographs, this unparalleled look at Waffen-SS combat troops and their camouflage clothing will benefit both the historian and collector.

My Personal Review:
This is the most complete reference of SS camouflage patterns and clothing I have seen. It includes several patterns (plane, palm, blurred edge, dot, oak leaf and LIEBERMUNSTER ), as well as extensive coverage of the garments utilizing these designs (zeltbahn, smocks, M-44, panzer, hats, mitts, parkas, anoraks and tropical clothing). The book contains hundreds of clear color photos and documents the development of each pattern and piece. An excellent buy!
