Imaginations will soar! From the fastest--and noisiest--passenger plane in the world, to downright strange aircraft, here is a spectacular look at a subject of endless fascination to children. Marvel at one of the first planes to blast into space! Learn about a plane that can land on water. And take a close look at the fastest of all jet planes, the Blackbird. Striking photographs are supported by lively and informative text that gives children a fuller understanding of these amazing machines.

My Personal Review:
This book was a christmas gift for a young boy who loves planes and wants to be a pilot. Hes also learning English as a second language. This book was the perfect inspiration for a 12 year old! Very colorful, informative, and a good mix of the old and the new.
