Catty has always wanted to find out who her birth mother was, and oddly enough, she has the power to allow her to do just that. When Catty goes back in time, she not only manages to meet her mother, but she also finds out some very disturbing truths about her identity and her fate.

My Personal Review:
This is a very interesting book. If you like stories about girls who have powers. Then this is a good book for you to read. In this book it is about a girl name Catty. In this book she is trying to find her real mom. While she tries to find her mom she bumps into something strange. A guy is trying to give her this little message thing to help her. But she still doesn't know that who it is though. So anyways she finds out a little thing about the passage. In the middle of the story she finds out who her mother and all that good stuff.
