Defusing Armageddon: Inside NEST, Americas Secret Nuclear Bomb Squad by Jeffrey T. Richelson

Definitely An Authentic Story Of Nest....

The first in-depth examination of NEST: Americas super-secret government agency operating to prevent nuclear terrorist attacks. Jeffrey T. Richelson reveals the history of the Nuclear Emergency Support Team, from the events leading to its creation in 1974 to today. Defusing Armageddon provides a behind-the-scenes look at NESTs personnel, operations, and detection and disablement equipment--employed in response to attempts at nuclear extortion, lost and stolen nuclear material, crashed nuclear-powered Soviet satellites, and al Qaedas quest for nuclear weapons. Richelson traces the Cosmos satellite that crashed into the Canadian wilderness; nuclear threats to Los Angeles, New York, and other cities; and the surveillance of Muslim sites in the United States after 9/11. Relying on recently declassified documents and interviews with former NEST personnel, Richelsons extensive research reveals how NEST operated during the Cold War, how the agency has evolved, and its current efforts to reduce the chance of a nuclear device decimating an American city. 16 pages of illustrations; 4 maps.

My Personal Review:
A close friend of mine was intimately involved in NEST and Livermore Lab... from what little he could share of his experiences, this book is extremely accurate...
