Dreamsongs: Volume I

Thoroughly Enjoyable

Dubbed “the American Tolkien” by Time magazine, 1 New York Times bestselling author George R.R. Martin is a giant in the field of fantasy literature and one of the most exciting storytellers of our time. Now he delivers a rare treat for readers: a compendium of his shorter works, collected into two stunning volumes, that offer fascinating insight into his journey from young writer to award-winning master.

Gathered here, in Volume I, are the very best of George R.R. Martin’s early works, including never-before-published fan pieces, his Hugo, Nebula, and Bram Stoker Award-winning stories—plus the original novella The Ice Dragon, from which Martin’s New York Times bestselling children’s book of the same title originated. A dazzling array that features extensive author commentary, Dreamsongs, Volume I, is the perfect collection for both Martin devotees and a new generation of fans.

My Personal Review:
A split up version of the Dreamsongs collection, first part thereof. A standout indeed, at 3.82. Martin also adds significant introductory material to illuminate the parts of his career, as well as the stories. These show you how good a short story writer he is, and thankfully he has at least gone back to it a little recently, in amidst the interminable fantasy series.

A really, really good collection.

Dreamsongs 1 : : Only Kids Are Afraid of the Dark - George R. R. Martin
Dreamsongs 1 : : The Fortress - George R. R. Martin
Dreamsongs 1 : : And Death His Legacy - George R. R. Martin
