Essential Statistics in Business and Economics with St CD Rom (Irwin/McGraw-Hill Series in Operations and Decision Sciences) by Lori Seward

Textbook Purchase

This 1st Edition Essentials text offers an Excel focused approach to using statistics in business. All statistical concepts are illustrated with applied examples immediately upon introduction. Modern computing tools and applications are introduced, and the text maintains a strong focus on presenting statistical concepts as applied in business--as opposed to providing programming methods used to find a mathematical solution. Interpretation of results is heavily emphasized, enabling students to take full advantage of Excel to develop and drive problem-solving skills.

My Personal Review:
The book arrived in good condition and it only took a few days to receive. I would recommend this seller.
