A Great Reference Book From Start To Finish (And Then Some)

Get half a million fast, accurate facts in this fascinating, easy-to-access book that makes fact-finding fun for the whole family. Great for schoolwork, speeches, crosswords, and more, this fact-packed book features over 800 color photographs, maps, charts, cause-and-effect diagrams, easy-to-follow timelines, color-coded chapters, and complete cross-referencing.

My Personal Review:
Have you ever wanted to find quick answers to questions without going through an encyclopedia or having to go online to search for them? Are you a fan of trivia, history, nature, and dozens of other interesting topics? If so, Facts at your Fingertips could be just what you're looking for. At just over 480 pages, this book is jam packed with tons of information and supporting reference material such as diagrams, graphs, timelines, photographs, lists, statistics, and conversion tables. All the major sections are color coded also which makes it faster when looking for certain items.

The main topics in Facts at your Fingertips are as follows:
The Universe and our planet
Life on Earth
The human body
The history of mankind
Peoples and nations
Culture and entertainment
The global economy
Science and invention
Ready reference

I was a little surprised (but also highly pleased) at how detailed the material is and how well it is written and presented. Of course, since this is a Reader's Digest book, I've come to expect that since they put together such fine books. Whether your interest is in learning new things, rediscovering lost knowledge, or maybe just some quality leisure time
reading, Facts at your Fingertips is sure to please and I highly recommend this book to everyone.
