From Conn Iggulden, 1 bestselling author of six historical epics and coauthor of the international sensation The Dangerous Book for Boys, comes a magnificent new work of fiction. Here, the Mongol conqueror Genghis Khan, stalked by enemies seen and unseen and plagued by a divided family, leads a sprawling force of horsemen beyond the realm of their known world. He will bring a storm to Arab lands and face the armies of the shah in all their strength.

From the fierce cold plains of Mongolia to the Korean Peninsula, Genghis’s brothers, sons, and commanders have made emperors bow, slaughtering vast armies of fighting men. But as Genghis enters a strange new land of towering mountains and arid desert, he stirs an enemy greater than any he has met before. Under his command, Shah Ala-ud-Din Mohammed has thousands of fierce Arab warriors, teeming cavalry, and terrifying armored elephants. When Genghis strikes, the Arabs prove their mettle. On the verge of defeat, Genghis is forced to leave his own vast encampment, and the women and children in it, in the path of an enraged, savage enemy.

While the Mongols—men, women, and children—fight back, as secret assassins are sent into the night, another battle is taking shape. Two of Genghis’s sons, Jochi and Chagatai, are steeped in enmity. Warriors choose between them, and a murderer commits an unspeakable crime. Soon the most powerful man in the world, who has brought devastation to this land, must choose a successor. And when he does, it will touch off the most bitter conflict of all.

In a novel that ranges from the fertile lands of the Chin to the dust and rock of Afghanistan, Conn Iggulden weaves the epic story of history’s most enigmatic conqueror —those who feared him, those who defied him, and those whose bones he left behind.
WOW! What an ending to what is probably the best historical fiction I've ever read. Iggulden has created a world were as a reader I can close my eyes and see myself standing next to the great Genghis himself, I can taste the salt tea in my mouth and feel the air going through my hair as I ride one of the famous Mongol mounts. Yes this trilogy is just that good! As a fan of his previous Emperor novels I knew I would be in for a treat reading this trilogy, but honestly there is no way did I think he could trump his Emperor novels, he has, in every aspect, from his character building to his writing style. All I can say is, brilliant!

In this last sweeping novel Genghis sets his sites on the Muslim world, after his Mongol diplomats are executed on site his sets the mongol nation on course that will see them through wars that they could never have imagined. Pitting his skills against the Shah Mohammed not only that though, he has to solve a crisis in his own ranks as his sons grow to men and argue over the right to lead after Genghis has gone. Will armies of Genghis be destroyed by the Shahs forces or will his sons destroy what he has worked so hard to build?

If you want to read history at its best then Iggulden creates a masterpiece of history ans story telling, by far one of the best authors around today.
