#7 in the series, and the stories keep getting better. This time Eve not only has to deal with the vicious Santa Claus killer, but also with her first Christmas with Roarke. I'm finding that I am as much interested in the details of Eve's life as I am with the main plot, which is, as always, a well-crafted and tightly written thriller. Furthermore, in this one I didn't figure out who the killer was until about ten pages before Eve did. That is good. I hate when the clues are so obvious that I don't understand why the detective hasn't seen what I saw. The delight for me in this story was seeing how Eve gingerly negotiates what it means to have people in her life about whom she cares enough that she has to think about buying presents for them! I think she did pretty well, and look forward to the day when she includes Summerset on her Christmas list.

Another facet that I liked was the way that Robb is slowly deepening the relationships between Eve and Peabody and Mira and the other people that she is drawing into her orbit - and also that she is continuing to grow their relationships. Here are the beginnings of a romance between Peabody and McNabb! Another great read.
