Hunters of Dune and the concluding volume, Sandworms of Dune, bring together the great story lines and beloved characters in Frank Herbert’s classic Dune universe, ranging from the time of the Butlerian Jihad to the original Dune series and beyond. Based directly on Frank Herbert’s final outline, which lay hidden in a safe-deposit box for a decade, these two volumes will finally answer the urgent questions Dune fans have been debating for two decades.

At the end of Chapterhouse: Dune--Frank Herbert’s final novel—a ship carrying the ghola of Duncan Idaho, Sheeana (a young woman who can control sandworms), and a crew of various refugees escapes into the uncharted galaxy, fleeing from the monstrous Honored Matres, dark counterparts to the Bene Gesserit Sisterhood. The nearly invincible Honored Matres have swarmed into the known universe, driven from their home by a terrifying, mysterious Enemy. As designed by the creative genius of Frank Herbert, the primary story of Hunters and Sandworms is the exotic odyssey of Duncan’s no-ship as it is forced to elude the diabolical traps set by the ferocious, unknown Enemy. To strengthen their forces, the fugitives have used genetic technology from Scytale, the last Tleilaxu Master, to revive key figures from Dune’s past—including Paul Muad’Dib and his beloved Chani, Lady Jessica, Stilgar, Thufir Hawat, and even Dr. Wellington Yueh. Each of these characters will use their special talents to meet the challenges thrown at them.

Failure is unthinkable—not only is their survival at stake, but they hold the fate of the entire human race in their hands.
My Personal Review:
I wondered how these authors were going to pull it off. The original Herbert left so many questions unanswered, so many alliances, so many storylines (and some of them were confusing on the first reading). Brian Herbert and Kevin Anderson introduced dozens more questions in their own books. But hUNTERS picks up the story very nicely. Even if you dont exactly remember everything that happened in the previous book, or if its been a long time (or if youre one of those who didnt even read it), the authors give you enough details to get you up to speed, but they dont go overboard.
The story begins in an interesting fashion by introducing the different characters and plots, each one in the middle of a crisis. Each one gets more and more complicated, picking up on hints that readers spotted in the Herbert originals. Gholas being grown of special cells from all the main characters in previous books. It makes for a very interesting mix. Just to see Jessica, Paul, the Baron, and Thufir Hawat all being the same age -- cool! HUNTERS isnt a good place to start if you havent read a Dune book before, but its certainly a great addition for the rest of us real Dune fans.
