This book is for ages 5-8. Little Raccoon likes clomping and stomping and romping. He likes noise. He likes messes. But Mama Raccoon, like most mothers, likes a little peace and quiet. She likes sitting on the porch and sketching the cat. She likes tidy rooms. One day, Little raccoon makes an effort to help his mom and makes Mothers Day a very special day.

My Personal Review:
Written by Eileen Spinelli and illustrated by Lydia Halverson, I Like Noisy Mom Likes Quiet is a lighthearted picturebook about a raccoon mother and son. The mother likes quiet activities, such as drying the cat on the porch, and the son loves nothing more than making lots of noise! But one day the noisy boy does his best to tiptoe and whisper all day long, because he wants nothing more than for his mother to enjoy Mother's Day just as she wants. The playful, humorous and finely detailed color illustrations bring this charming family story to life.
