Karl Pilkingtons third book, follow-up to bestselling The World of Karl Pilkington and Happyslapped by a Jellyfish, is a voyage through some of the most curious facts and fictions about our world. Drawing on what little he learned during his days of education, Karl explores the world of knowledge through a school curriculum, with chapters devoted to biology, history, art, and English, among others, each topic approached with Karls inimitable combination of innocent wonder and down-to-earth wisdom. Full color throughout, the book is illustrated with Karls hand-drawn cartoons and comic strips and it features e-mail contributions from a host of celebrities and experts who Karl has quizzed to further his knowledge.

My Personal Review:
For those of us who can't get enough of the Ricky Gervais Show, Karlology is a great fix! This book is no different than the last... if not better. As Steve Merchant said, it's a great book to keep in the bathroom LOL Karl's state of mind and wit are a real treat throughout the book, just as they are in the podcasts and old XFM shows. Brilliant :)
