My Personal Review:
Lets face it: Marvels Monsters are a cute bunch. Theyre more entertaining than terrifying. Its like seeing a bunch of mutated soft toys gone wrong. MARVEL MONSTERS is Marvels affectionate tribute to the characters that helped keep the comic book company alive once upon a time in the 50s and 60s. I had to get this when I picked it up from the shelves - why? Because I realised that the book was filled with both old AND new takes on the Monsters - the Fin Fang Foom; The Original Hulk; the Devil Dinosaur, etc. Most people might think this was just a compilation of old Monster comics. Well, its a lot more. Stories like Devil Dinosaurs The Battle That Time Forgot show that Marvels team, above all, knows how to have fun with its monsters. Kitschy? Absolutely. This is a must have for anyone who wants to read bedtime monster tales to their loved ones, without scaring them. (PS includes some classic art from Jack Kirby)
