Interesting, Entertaining And Full Of Surprises

I really liked this book. I read it many years ago, and picked it up again last year to read once again. It was written back in the early 80's, but set in the near future. I enjoyed how the authors would take real excerpts from newspapers and put them at the beginning of every chapter. It was also interesting how they would add their own articles for the events that happened later (ie: they would have more excerpts that would be from the year 1990, or 2000, or 2010, etc. etc.) They painted a dark image of how the world may end up, but I think they did a fantastic job of keeping you interested and wanting to read more and more. If you like Fiction that's got a swirl of truth, than you will love Nature's End.
