Just when you thought it was safe to go online . . . Serge has returned!

That loveable collector of trivia, souvenirs, and murder methods is back with a new A-Tour of Florida. And this time hes out to set the record straight!

Serge is upset that his beloved state isnt getting its proper recognition, so he signs on with the big Internet travel services. But his new employers arent exactly sure they want to send their customers to Serges favorite haunts—nor do they want to provide tips on how to keep from getting killed on vacation.

Serge couldnt disagree more, and he sets up his own wildcat site, hyper-blogging his way down the coast with his perpetually hammered sidekick, Coleman.
Unfortunately Serges Web presence catches the attention of his nemesis, Agent Mahoney, and the chase is on.

Meanwhile, professional robbery crews have begun targeting trade show exhibitors, who may or may not be what they seem. Bodies begin piling up, which is less than usual for the locale—except this time it involves rare postcards. Serge has had enough! Hes forced into the only logical course of action—go shopping at the Home Depot.

And this only raises more questions:

Who is tutoring strippers through the community college?

What sparked the grudge match between coin and stamp enthusiasts?

Howd the astronaut in diapers get involved?

Why does Serge have to stop at the NASCAR superstore?

Where did all these diamonds come from? And does Lynyrd Skynyrd hold the key to everything?

It all starts with a tragic tattoo parlor mishap and soon nobody is safe, especially the person on the Robert De Niro stool, because, after all, Serge has to sit there or whats the point of life?

But wait! You say you want more? Serge says, You got it!

Guns, drugs, bloody crime scenes, historically relevant sex, library quiet time, glow-in-the dark deformities, hotel drink coupons, a naked woman in a shark cage, and John Travolta.

Its time to sign on with Serge and see where the twisting, sun-splashed trail leads in . . . Nuclear Jellyfish!

**Personal Review: Nuclear Jellyfish: A Novel by Tim Dorsey**

If you don't get Dorsey's humor, you've obviously never lived in Florida. I have, and I swear, I've met some of his characters. There’s a side of Florida that most tourists don't see, and many residents choose to ignore. Pity about that, because the gold is in the dark. Serge and Coleman are my heroes. Dorsey writes about a Florida of yesteryear, through Serge’s narrations. The Florida of tacky tourist shops and quirky destinations. Many of the places he writes of, I've been to, which makes it all the more enjoyable. Keep up the good work Dorsey, and thank you for your Florida passion. Freaks of the world, I give you Serge A.
