One Hundred Flowers features 100 exquisite colour portraits of dahlias, roses, anenomes, poppies, pansies, orchids, tulips, azaleas, peonies, and other flowers in luscious detail. Each variety is coupled with a brief description, including tips about cultivation, as well as comprehensive notes about the major flower groups, all written by a distinguished botanist making the book as useful as it is beautiful. One Hundred Flowers also includes an introduction by popular garden author and lecturer Sydney Eddison and a critical essay by celebrated photography critic A.D. Coleman.

**Personal Review: One Hundred Flowers by Harold Feinstein**
The book has wonderful clear pictures that pop off the pages. I actually bought the book to cut out pictures and frame. They all have black backgrounds, so I framed 6 of them in black frames with white matting (8x10 opening). I put them in a block - 3 across, and 3 underneath and everyone who walks in the room comments immediately on these pictures as they really pop out. Some of the pictures are 10x10 and are wonderful, but I've had difficulty finding frames for these. This is an inexpensive decorating idea - bought frames at Michaels on sale.
