My Personal Review:
I was so bemused and interested in the section Ms. Chase read out loud at the author's signing event that I bought her book, Picturing Las Vegas. It became my favorite Christmas (and/or Chanukah) present to give. This is much more than a wonderful coffee table book chock full of photos. It also is a terrific account of the history, the sociology, the quirks, gossip and bombshells of Las Vegas, written by someone who deals in words as deftly as the dealers deal with cards. The author grew up in Las Vegas, so her voice rings not only with wry wit, and intelligence, but with the kind of authenticity that only observed memory can provide. It's too late for Christmas, but it would make a really good Valentine's Day present!
