You are six years old. Every day after school your father takes you to a sprawling castle filled with exotic animals, bowls of candy, and half-naked women catering to your every need.

You have your own room. You have new friends. You have an uncle Hef whos always there for you.

Welcome to the world of Playground, the true story of a young girl who grew up inside the Playboy Mansion. By the time she was fourteen, shed done countless drugs, had a secret affair with Hefs girlfriend, and was already losing her grip on reality. Schoolwork, family, and ordinary people had no meaning behind the iron gates of the Mansion, where celebrities frolicked, pool parties abounded, and her own father—Hugh Hefners personal physician and best friend, the man nicknamed Dr. Feel Good—typically held court.

Every day was a party, every night was an adventure, and through it all was a young girl falling faster and faster down the rabbit hole—trying desperately hard not to get lost.

My Personal Review:
Sure this was impulse buy for me to go on vacation. But what a great read this ended up being. I thought this would give me some juicy tidbits on life at the mansion. But what it ended up giving me was so much more. An insight to life growing up in Hollywood with an addict parent and no rules. And the results.
