My Personal Review:
What an excellent book for any young person! It is especially good for a young person experiencing divorce. As an adult child of divorce, I could relate to Richard's feelings about the break-up of his parents. And as a teacher, I can see how students could relate Richard's feelings about being at a new school, making new friends, etc. I especially loved the ending - it gave great closure to the story and left me with a strong message...finding your voice in writing (or just as a young person) can be so powerful. A great read for a child or adult!
