This book contains 2004-2005 Price Guide. Roseville Pottery is one of the largest and most extensive pottery lines in today's antique and collectible market. You can go to any show, antique mall or antique shop and find a piece of Roseville. Don't be left behind in the discovery of pieces of Roseville that may have never been identified in any book until now. This is the most complete reference on Roseville. There are many new and unknown patterns listed and pictured. Over 400 full color photos. There are over 500 Roseville Pottery Co. items showing all of the known patterns made. Jack & Nancy Bomm have researched this book for over 5 years and they are current leaders of the Roseville of the Past Collectors Club, the only collectors club for Roseville Pottery. Size 8 1/2 X 11.

My Personal Review:
As author of the book, I thank everyone for their kind response. I am sorry that some of the pictures are not real clear but you must remember that these company plates were salesman sample pages some from the late 1900's. The newest pictures are from 1954. Since the book has been selling for six years now and has sold over 20,000 copies someone must be satisfied with the book. Watch for our new Roseville book coming out by the end of the year. It will be a collectors size book with all the pictures and prices plus place for all your information.
