In 1928, Edgar Snow (1905-1972) set out to see the world, hoping to make his mark as a travel-adventure writer. Shanghai was to be a mere stopover, but Snow stayed on in China for thirteen more years. The idealistic young Midwesterner became a journalist and ultimately developed close friendships with China's emerging revolutionary leaders. His 1938 classic, Red Star over China, strongly influenced American views of the Chinese Communists and is still in print nearly sixty years later. This biography breaks fresh ground with its unique and extensive use of Snow's diaries of over forty years. These writings convey Snow's private hopes and fears, his moods and motivations. Thomas skillfully links them with Snow's public writings and deeds. By recreating the milieu in which Snow worked in China, Thomas provides a clearer understanding of both the man and his times. Snow came to China devoid of any political agenda or sinological background. He returned home a politically astute China hand and famed journalist-author. His writing had taken on the nature of political action, which resulted in troubled soul-searching that Snow usually confined to his diary. Thomas's portrait of Ed Snow reveals a man caught up in an important historical moment, a man who profoundly influenced, and was influenced by, the events that swirled around him.

My Personal Review:
I read this book a few months ago, but I just stumbled upon this site today. When I was a college student many years ago I read Snow's famous book, "Red Star Over China," the work that first introduced the enigmatic leaders of the Chinese Communist revolution to a curious Western public. Thomas deftly places us back in that era as we embark with Snow on his journey of discovery. I particularly enjoyed the descriptions of Snow's personal encounters with Chairman Mao,
which I found surprisingly poignant. You sensed that they shared a personal bond which transcended the political and historical stage upon which they acted.....
