On the night of 9/10 July 1943 the All Americans of the 82nd Airborne Division jumped into history as they made their first parachute assault of World War II. Three others would follow: Salerno, Normandy, and Holland. In total the division served more than three hundred days in combat, a record unmatched by any other American division. With nearly 400 historic photographs, many never before published, The All Americans in World War II provides a complete photographic history of the 82nd Airborne Division as it fought its way across Sicily, Italy, France, Belgium, and Germany, ultimately all the way to Berlin as part of the American occupation forces. This book is an essential addition to any serious World War II collection and a tribute to the fighting spirit of this legendary division.

My Personal Review:
Phil Nordyke's a foremost expert in 82 Airborne history. He has based his information form historical text but has obtained most of the hard core history form the WW 2 veterans of the 82nd Airborne themselves. I have meet Phil at the Reading Air Show he has introduced me to many 82nd AB veterans. I have all his books signed by him and several veterans. Phil is a dedicated historian and is an expert on 505th history.

This is a great book showing RARE photos that are not in the average books and on the web. I would highly recommend this as well as all his books:

"Airborne All the Way"!!!
