Personal Review: The MacArthur Study Bible: Revised & Updated Edition

The MacArthur Study Bible: Revised & Updated Edition, is my first, ever, study bible. So since it's my first, I have nothing to compare it to. One thing I noticed on the description of this study bible before I purchased it, was that it stated that there are notes on virtually every verse. I don't know if this is uncommon with other study bibles but, with this one, it is as advertised! And, for the most part, they are very helpful, informative and even sometimes, interesting. The main point, to me anyway, is that it's not watered down. MacArthur isn't shy about teaching doctrinal truth and making a point that if you don't have a relationship with our Lord and Savior, Jesus Christ, then you're probably not going to get much out of reading the Bible, much less, studying it. So, for this being my first study bible (I have my eye on The Apologetics Study Bible) The Apologetics Study Bible: Understand Why You Believe it has answered any question that I've had so far, and I've just to begin exploring the Bible in this new light. So far it's been enlightening and I would strongly recommend it.
