Helpful Resource

The classic Robertson/Broadus Harmony of the Gospels, newly revised for students of the New International Version.

My Personal Review:
This resource is proving to be very valuable in my Study of the Bible. I often struggle with pulling out the subtle but significant differences between the synoptic gospels. Flipping back and forth in my Bible leaves me feeling frustrated. After using the "NIV Harmony of the Gospels" in my personal study, rather than feeling frustrated, I am excited and am able to appreciate those subtle differences. I would HIGHLY recommend this resource for any student of God's Word!
