The People of Sparks (Ember, Book 2) by Jeanne DuPrau

Excellent Conflict Resolution.

When teenagers Lina Mayfleet and Doon Harrow lead their people up out of the Earth, fleeing their dying underground city of Ember, everything is new and a little frightening to the refugees—the sun and the moon, birds, trees, fire…and the people of Ember are strange to the 322 citizens of Sparks, one of the few towns on Earth to survive the time of The Disaster. How can they feed and house the 400 Emberites, the leaders of Sparks wonder, when they have just begun to be able to feed themselves comfortably? But if they don’t, these underground people with no survival skills will surely die in the wastelands. They take them in as best they can, but grumbling and bad feeling grows on both sides. Lina returns from a failed search for her persistent vision of a city of light to find the town, egged on by the power-hungry young thug Tick, once again at the point of war, forgetting how the Earth has been destroyed before. But Lina has seen the devastation left by The Disaster, and so she risks a brave move of reconciliation, and when Doon exposes Tick’s trickery, the two sides join as the new people of Sparks. In this exciting and solidly constructed
sequel to The City of Ember, Jeanne DuPrau moves the story on entrancingly, bringing along her cast of characters from underground and adding new dimensions and relationships as the action escalates to a satisfying conclusion that still allows for further volumes in this fine fantasy. (Ages 10 to 14) --Patty Campbell

**Personal Review: The People of Sparks (Ember, Book 2) by Jeanne DuPrau**

This is the second book of Ember, a collection of children books.

When Lina Mayfleet and her friend Doon Harrow lead the people of Ember out to the outside world, they are adopted by a town that survived the atomic holocaust (Four Wars and Three Plagues).

Unfortunate the survivors of Ember outnumber the people of Sparks. The Sparks town leaders decide to adopt them and to share their food in exchange for work.

Lina and Doon learn, through two different pathways, that the war that destroyed the world occurred because people got angry with each other and started doing evil things to their fellow men. They learn that the only way to stop the destruction is to eradicate the hate from the beginning. Lina goes on an adventure and gets to see first hand the destruction from an atomic attack.

Which is good, because the people from Ember and the People from Sparks start bickering about how food and work should be divided. Doon gets accused falsely of wasting food and a person from Ember foments the hatred.

In this second installment of the highly acclaimed The City of Ember, Jeanne Duprau explores the nature of conflict and the strength and courage necessary to overcome it.

Even though it was written for children, the themes are so universal and the writing is so good that they will be enjoyed by anyone who loves science fiction.
