Think vampires are romantic, sexy, and powerful? Think again. Vampires are dead. And unless they want to end up staked, they have to give up fanging people, admit their addiction, join a support group, and reform themselves.

Nina Harrison, fanged at fifteen and still living with her mother, hates the Reformed Vampire Support Group meetings every Tuesday night. Even if she does appreciate Dave, who was in a punk band when he was alive, nothing exciting ever happens. That is, until one of group members is mysteriously destroyed by a silver bullet. With Nina (determined to prove that vamps aren’t useless or weak) and Dave (secretly in love with Nina) at the helm, the misfit vampires soon band together to track down the hunter, save a werewolf, and keep the world safe from the likes of themselves.

The perfect anecdote to slick vampire novels, this murder-mystery comedy of errors will thrill fans of Evil Genius.

My Personal Review:
I was rewarding myself for having such a productive week when I bought this and boy oh boy is this a swell treat.

From the first page I was caught. No, not just by the clever turn of phrase and the hilarious lives these vampires lead, that’s a given. I read Evil Genius and loved it too. No, it’s the careful way that the characters are revealed and the absurd things they have to do to survive.

The plot is pure gold; Imagine going to a support group for thirty years. Thirty years of seeing and listening to the same small group of people talking about their problems. Now add to that someone who is permanently in the body of a 15yr old and is the beneficiary of pep talks and advice about her situation; you are in the denial stage of vampirism, etc.

At its heart this is a mystery. In the grand tradition of mysteries (at least the ones I like), the heroine has several handicaps, not the least of which is that she lives at home with her mother and can’t go outside during the day. She spends her time writing vampire adventure stories.
I don't want to give anything away, truly this is a book to be savored (I devoured it in two days, what can I say, I have no self control).
