Around the world, countries are beginning to feel the effects of the oceans revenge as the seas and their inhabitants begin a violent revolution against mankind. In this riveting novel, full of twists, turns, and cliffhangers, a team of scientists discovers a strange, intelligent life force called the Yrr that takes form in marine animals, using them to wreak havoc on humanity for our ecological abuses. My Personal Review:
This is an outstanding book. It is somewhat technical at times, but nevertheless a true page turner! I am so glad that I read this one.... It kept me on my toes for a couple of weeks! It is very long (more than 800 pages in small print) but it is worth every page. I could not put this one down...... buy it, youll see!
