Love It!

The well-behaved hero of this story goes right to bed without any fuss. But the show-off tiger in his closet wants to tap-dance and play the drums. An increasingly annoyed little boy argues, scolds, and pleads. Oops, Tiger is sorry! Tiger will be very, very quiet, Tiger promises— but it’s hard to be good when you’re alone in the dark. The little boy wonders if he’ll ever get to sleep—until he discovers the best way to deal with a noisy tiger is to let him snuggle into bed with you. Children who don’t want to settle down at bedtime will happily recognize themselves in this adorable noisemaker.

My Personal Review:
A little boy can’t sleep because there is a tiger in his closet who keeps finding new ways to make noise. My girls love this book at bedtime. It is great for kids who are old enough to start seeing humor in books. They laugh at each new antic of the tiger, and I often hear them repeating phrases from the book throughout the day to their stuffed animals (such as, Tiger! You are driving me crazy! No more noise!).

The book also provides an opportunity to show kids that they need to be quite at bedtime. And the onomatopoeia gives the kids a chance to read along.

The pictures are friendly and, even though they take place in a darkened room at night with a tiger in the closet, are not frightening. The humor helps kids imaginations turn toward the pleasant rather than the scary when they hear bumps in the night.
