My Personal Review:
This is a very nice one-volume overview of dispensational theology. The large volume is actually made up of ten separate and previously written books which have been brought together to form one systematic theology. The point of view is dispensationalism of the Dallas Theological Seminary variety. Because it is made of of 10 different books (and authors), it is extremely readable one section at a time. Not nearly as detailed as Lewis Sperry Chafer's unabridged Systematic Theology.

If you aren't a dispensationalist but want a single systematic theology as representative of that genre of theology, this is an excellent choice.

If you are a dispensationalist, you'll also want Charles Ryrie's Basic Theology, Chafer's Systematic Theology, and perhaps Norman Geisler's 4-volume Systematic Theology as well. But this is a great place to start.

Very nice hardcover binding - I believe it is mylar. The print is small, but not unusually so for a 1,400 page theological book. Very readable.
