The newest title in The Way I Feel series addresses the topic of jealousy for young children. A bear cub describes situations that make her jealous: when someone has something she wants, when someone is good at something she wants to be good at, and when someone else gets all the attention. Jealousy is a prickly, hot, horrible feeling. I dont like feeling jealous but--everybody feels jealous sometimes. The little bear finds ways to make herself feel better--she talks to someone about how she feels and then does something pleasant--and soon the jealous feeling goes away.

My Personal Review:
My daughter, 2 1/2, loves these series. I read all the When I Feel books to her every night - she especially likes When I Feel Jealous and I think its because she has a new baby sister that she is noticeably jealous of. She has me read this particular book to her all day. Anyway, I would recommend these books to all.
