Never break The Circle.

In this final installment of Ted Dekker’s groundbreaking Circle trilogy, Thomas Hunter has only days to survive two separate realms of danger, deceit, and destruction. The fate of both worlds hinges on his unique ability to shift realities through his dreams.

Now leading a small ragtag group known as The Circle, Thomas finds himself facing new enemies, never-ending challenges, and the forbidden love of a most unlikely woman.

Enter the Great pursuit, where Thomas and a small band of followers must decide quickly who they can trust—both with their own lives and the fate of millions. Dreams and reality quickly bleed into each other as time runs out. And neither the terror of Black nor the treachery of Red can prepare Thomas for the forces aligned against The Circle in White.

My Personal Review:
This is the third book in a series, so if you are reading this and are unfamiliar with the series, the first recommendation is to start at the first book titled: Black.

This three part story is quite unusual, even for the genre it represents, which can best be described as a science fiction/fantasy/suspense allegory of the Christian faith. As such, the imagery and way in which the story unfolds is quite powerful, and often shocking.
I am glad I waited several weeks after reading this book to write the review as I have found that images have stuck with me, and become clearer as time passes. This in itself is high praise for a novel, as many are discarded mentally as soon as they are finished.

In this final chapter of the saga we find the lead character still switching back and forth from two different worlds through the gateway in his dreams. On modern day earth a terrorist has unleashed a biological weapon that has infected most of the worlds population, and has the antidote in exchange for the nuclear power of the worlds nations. In the alternate world, Hunter, is still leading a small band in an attempt from being slaughtered by the enemy. Without giving away too much, he finds himself with a most unusual and conflicting situation: he has fallen for the daughter of his enemy. The entire enemy is diseased, and has an actually quite revoltingly described skin condition, and this daughter is no different, so he must look past this and try and rescue her before he himself and his small group are wiped out.

Sound strange? You bet. There is nothing remotely normal about this story or the depictions and events. It sends emotionally conflicting messages continuously. This is why it works so well as an allegory. The writing is superb; fast paced, and always leaves the reader on the edge of the seat. Ted Dekker is a writer of rare creativity and imagination.

Start with the first book, read the story all the way through the three books: Black, Red and White, (now no having to wait months between releases) and enjoy the plot and suspense. The deeper meaning becomes clear long after the story is finished. Well done.
