My Personal Review:
Beautiful pictures, it gives you plenty of things to talk about and think about if you are planning a wine cellar. This book does not give a lot of details on why things are done the way they are - it is more of an idea book. I've read a few other books on the details of wine cellar construction, so I already knew why things are done as they are in many of the pictures.

This book gave me tons of ideas and helped me spark my creative juices.
