Zathura by Chris Van Allsburg

On the last page of the Caldecott-winning book Jumanji, young Danny Budwing is seen running after his brother, Walter, with a game tucked under his arm. Now after twenty years, Chris Van Allsburg is ready to reveal what happens when Danny and Walter roll the dice. This time the name of the game is Zathura and the battling Budwing boys are in for the ride of their lives.

The first book in seven years by Chris Van Allsburg, Zathura is a dramatic adventure that promises a breathtaking and unforgettable experience. At the story’s end which becomes, miraculously, the beginning, we find that Walters feelings for his little brother are greatly altered.

Only the mind and hand of Chris Van Allsburg could create this fantastic world where shifts in time and space and perspective take the reader on such an extraordinary journey.
Jumanji and Zathura are exciting books. Jumanji and Zathura go together well. They are both exciting. In Jumanji a boy and a girl find a game and play. When they are done they put it back where they found it. Then two boys take the game. They think Jumanji looks boring, but tucked inside the Jumanji box they find Zathura. Then there is a lot of action. These two books are awesome! I highly recommend them to kids of all ages. -SB
